EDUCATION

The University of Kansas - 2018

Data Analytics Certificate Program

Kansas State University - 2002

Bachelor of Science in Business Administration - Management Information Systems (MIS)

PROGRAMMING PROJECTS IN GITHUB

Uncork This - A Wine Review Dashboard

Team Member

Worked in a team of three to take a dataset of 130k wine reviews from Kaggle.com that were in CSVs, combine them into several NoSQL tables, then interactively plotted them around the globe using Leaflet, D3.js, Javascript, and HTML.

Pymaceuticals

Sole Developer

Took sample datasets involving pharmaceuticals and plotted them using Python, Matplotlib, Pandas, and Seaborn.

Tableau - Citi Bike Analytics

Sole Developer

Took data from Citi Bike CSV files, cleaned up data in Excel, then plotted out several dashboards/stories in Tableau.

WORK EXPERIENCE

Philadelphia Insurance Co

Commercial Underwriter II 2012-2018

- Underwrote multiple lines (Property, Liability, Crime, etc) to provide a balance between maintaining profit for employer, while offering fair prices to customers in order to maintain good retention rate.
- Trained new hires as a mentor.

American Family Insurance

Commercial Underwriter II 2003-2012

- Underwrote multiple coverages as a direct agent contact. Traveled to the field to train agents and tour facilities with them to provide first-hand experience for the agents.
- Facilitated and orchestrated paperless work flow transition for all of commercial underwriting.

VOLUNTEER INFORMATION

Harmony Vineyard Church - Sunday School Teacher for 2-3, 4-5 year old

2015 - Present
